That was my reaction as well. I will let you know what I decide to do but will likely send someone to represent me.

Thanks 🙌

Good Morning Kim- all good at your end of the street?

FYI people/protesters are starting to camp out in the City Hall Parking Garage. They are also sending out the word that this is the cheapest parking in downtown. Security is very

downtown. Security is very concerned and recommending that we close the parking this weekend to the public. They are working on the plan now and I have approved the action.

Sorry this was meant for someone else... not terrible that you got it LOL

Yes all good so far... thanks for checking in!

I was thinking that was awfully quick response and you were waiting for my text 😂

Good to know in any case .. I would have approved that plan too 😊

Great job at the media avail.

Councillor Fleury reached out to my team as I would not take his call. From my staff Fleury says He met with BIAs and Police this morning and it did not go well. They did not instill confidence. They are asking for proactive presence in the ByWard Market and Rideau but Police could not respond. Also, it was unclear to them how businesses would be kept up to date if things escalate (no point of contact for business leaders - i.e. if Rideau Centre needs to shutdown). They are also asking for road closures and are being denied (because police won't support)...

Tks, I'm hearing some rumblings about that... 🙄

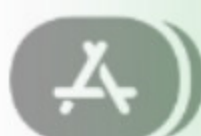

If you have time and are interested In a 5 min chat with Fleury, it might go a long way!

I can provide you his number if you want... no pressure

Thank you.. got it and will call him now

Good morning. Trish... I know this is gonna be a busy day for us and I don't want to send you for frivolous requests. The mayor is upset that there are several cars parked at the cenotaph and says it's very

disrespectful and is wondering if they could be moved.

I now understand that the NCRCC is coordinating removal.

Good Morning! Sorry, we were having our Command Briefing at 10 and this came up a number of times. We have towed 3 cars from the cenotaph so far this morning and are now tweeting it out. I am asking for Military police if they can have someone there to prevent it.

Thanks Kim! Do you have any resources around Rideau Centre, per chance?

What do you need?

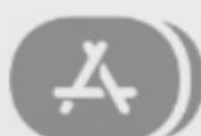

Was that a pocket dial or do you want to chat?

Good morning Trish... I think your service is doing a great job.

Is there a plan for trucks on the QED or are you just leaving it as is for now?

Hiva Kim. Thank you and good

Hiya Kim. Thank you and good morning! I am guessing you are getting grief from Councilor McKenny. I believe our plan is to leave them for now and assess during the day. INsp. Mbakulo is liaising with her.

Thanks for the info Trish... this is great. I will let your team deal with her.

Good move . Tomorrow will be interesting if we have a big group refusing to leave.

Agree... I see that some are leaving already but that doesn't mean a bunch won't decide to stay!

Yep- the hard core ones will be in. We checked with the hotels and they had 475 hotel rooms booked for tonight throughout the city, not all demo, but most

The motion today was all about studying the possibility of closing Wellington. I don't think it offers us any specific tools today.

Ok, thank you.. they may need to consider moving faster, but we can brief better when we know more about legal opinion.

The EOC has been briefed... they are working on a plan to get started tomorrow.

From Councillor Catherine Kitts. A resident reached out to let me know that 3 heavily decorated semis with protest messaging are taking up the entire parking lot at Capital City Church (corner of Old Montreal Road and Famille Laporte) in Orléans. Just wanted to flag it.

Thanks Kim.. I believe it may be the same crew just waiting for their pals to get trucks released and leave town, but I will pass it on to out people.

Thanks

They've been spoken to earlier
